

## **ARTS AND SCIENCE MAHILA MAHAVIDYALAYA, MEHKAR.**

### **BEST PRACTICES OF THE INSTITUTE**

**Best Practice 1:** One Day Eye Disease Diagnostic Camp in the campus for rural and needy patients in the Mehkar in collaboration with Shriram Netralay (Dr. Divthane) . The camp successfully inspected 34 patients from Mehkar and nearby villages. The activity helped the needy patients and generated the awareness among students . The activity was a part of the institute's social responsibility and dedication of the institute towards the betterment of the needy person. As eye is one of the most sensitive and vital organ of the body and human eyesight plays a key role in overall mindset and behavior of the human being, the care of such vital organ is of utmost importance. The eyes are sensitive for most of the diseases such as conjunctivitis, cataract, lower eyesight and many more so care should be taken for healthy eyes. Rural parts of India are not so well equipped for advanced diagnosis and treatment of the diseases. So the initiative is taken by the institute to support the cause which can help the rural people for medical care.

**Best Practice 2:** Competitive Exam Guidance and counseling is initiated with collaboration of Unique Academy, Pune the initiative taken for the upliftment of Rural students so that to make them competent for facing the competitive exams and increasing their representation in mainstream society. The students are encouraged to prepare and strive for the various competitive exams presently conducted by various government organizations so as to get job opportunities in public and government sectors and the students can become the righteous citizen of the nation and can help in nation building.

**Best Practice 3:** The various departments of Arts have started a initiative of felicitation of the class topper students. This has generated a healthy competition among the students thereby enhancing their performance in the university

examinations. This activity leads the student for healthy competition and achieves academic success in respective fields. The initiative triggered the enhancement in academic performance of the students. It encourages the student to go for deep study of the curriculum thereby accomplishing the means of motivation which is of most importance to increase the performance of the students.
