Preface

Indian sports women are coming into their own now - they are making India proud by winning medals and titles that had seemed so elusive until recently. Not only are there more Indian women in sport these days, they are doing better than ever before.

This book proposes to examine the situation of woman sports status in India. We need sportswomen of generation to achieve the reigns and encourage the coming generations. This new role made women, visible in the social space which enabled women to put down into the field of sports as well. By appearing at the institutional and other realms of sports in India the text explains how the gendered practice of sports marginalizes women in multiple ways. Our society has to make towards a massive cultural reform where we hold a sound work ethic. Until that is done Indian women will be just giving way after a mirage, not medals, in international sporting events. Although the most welcome gains in opportunities and an ever growing publicity of women's sports, the effects of a long traditionally gender bias in sports still persist.

It in the public space or in the private space women have been sounding off about the lack of coverage for sport by media since a very long time. This has made a real bad effect on the development of mutant. Media support and fan loyalty are also much more common in male sports than women. This book tried to explore this ambivalent attitude of Indian sporting women.

According to India's constitution, women are legal citizens of the country and deliver equal rights with humans. The most significant ingredient for this is the motivation factor,

ACKNOWLEDGEMENTS

Any important task requires devotion, dedication, and determination. Along with it also need support and encouragement of many people. Its my greatest pleasure to thank all my dear and near who co-operated me to complete this work. I am personally indebted to all for the present book.

I am sincerely grateful to my supervisor Dr. Rajesh Kshirsagar who guided me a lot for the completion of this work and boosted my morale. His easy manners and accessibility made the task of writing this work a pleasurable experience, without which his encouragement this task would not have been completed.

I dedicate this work to my father Shalikram Adhau whose blessing has helped me to complete this work. My husband Shri. Mangesh Khadse has been guiding spirit of my academic career, because of whose failing I would not have reached this height. My heartiest thank to the President of D. D. R. B. and it is there for all of us to see. We analysed that all the girl players that are really enthusiastic and concerned with athletics. They want not only to work but also to see a career in athletics. Empowerment in this sense refers to the surgical procedure through which women gain the self-confidence, strength, and in some contexts the information and skills, needed to clear strategic choices to improve their spirits.

The book attempted to explore this ambivalent attitude of Indian sporting women. The sporting culture and deep rooted traditional barriers that deprived Indian women taking front foot in the sports and above all the gender stereotype are some of the issues dealt with. Within a theoretical framework and practical examples and future suggestions this book brings out some of the biggest challenges that the women sportspersons face today.

This book is a must read for sports and physical education students and a huge resource for policy makers. The reference is a valuable resource for all libraries.
