Remedial Coaching Classes

Annual Report 2021-22

Introduction

Education is meant not only to nurture the excellence already in a gifted person but also to uplift the not so gifted. In order to enable students, who need remedial coaching to come up to the level necessary for pursuing higher studies efficiently and to reduce their failure and drop-out rate, our college provide facility for conducting special classes outside the regular timetable.

The purpose of Remedial Classes is to support the students who lag behind in their - basics and advancement of the subject. Many students have an issue with major subjects like English, Physics, Mathematics and Computer Science even at an undergraduate level. Remedial Teaching is identifying slow learners and giving them the necessary guidance to help them overcome their problems, after identifying their areas of difficulty for such students and provides support for the upliftment of such students.

Our College understands the concern of the need of the students and conducts Remedial Coaching Classes for students to minimize the drop-out rate and facilitate the students to complete the course. Careful analysis of student's performance in the examination and diagnosing the areas of difficulty are the key aspects in remedial teaching.

The subjects which trouble our students more are English, Physics, Mathematics and Computer Science. Keeping in view the condition of the students, the college provides an extra support to the students in these subjects. Remedial Coaching help and provides them ample support to get rid of their doubts which they find difficult to get to overcome in crowded classes.

Most of the students who are enrolled in our college are from the rural and poor background. They are not in a position to pay more for tuition classes. So, they find Remedial teaching rather helpful in understanding these difficult subjects. Students belonging all categories may also be allowed the benefit of such coaching classes. In the academic session 2015-16 in the first meeting of staff council Hon'ble Principal suggested all the science faculty teachers to participate in the activity of Remedial Coaching classes.

In the month of September 2021 the total 43 students of science faculty were admitted in this activity. The main objective of the scheme is to improve academic skill and linguistic proficiency of the students in various subjects. Raising their level of comprehension of basic subjects to provide a stronger foundation for further academic work. Strengthening their knowledge, skills, and attitudes in such subjects, where quantitative and qualitative techniques and laboratory activities are involved so that proper guidance and training provided under the programme may enable the students to come up to the level necessary for pursuing higher studies efficiently.

The Co-ordinator of the Remedial Classes plans the teaching schedule for the classes.
The subjects chosen for remedial classes are:

- 1) English
- 2) Physics
- 3) Computer Science
- 4) Mathematics

For the academic Year 2021-2022 the numbers of students enrolled for Remedial Teaching are

- 1) English- 14
- 2) Physics- 10
- 3) Computer Science- 09
- 4) Mathematics- 10

The more focus is given to the first Year Students as they find it difficult to cope up with the syllabus of the higher classes. An extra time is spent by the teachers on remedial teaching, other than their regular teaching hours.

The members of classes taken per week

- 1) English: Six in a week (Three for B.A. I students and Three for B. Sc. I students)
- 2) Physics: Three in a week (for B.Sc. Students)
- 3) Computer Science: Three in a week (for B. Sc. Students)
- 4) Mathematics: Three in a week (for B. Sc. Students)

OUTCOME:

- Students found the classes helpful in understanding the basics of the subject like English, Physics, Mathematics and Computer Science.
- Remedial teaching provided ample chance to the teacher to identify the slow learners and helped in paying more attention to such students which becomes difficult in large classes.
- A substantial rise has also been noticed in the marks of the students.

REPORT ON
“YOGA AND SURYANAMASKAR SHIBIR” : 2021-22

Yoga was originated in India in ancient time when people used meditation as a means to purify their mind and body. Yoga helps physical benefits include increased flexibility, increased muscle strength, improved respiration, a balanced metabolism and weight reduction. Yoga can also contribute to cardio and circulatory health, improved athletic performance and protection from various injuries. Smt. Sindhutai Jadhav Arts and Science Mahavidyalaya, Mehkar organized “Yoga and Suryanamaskar Shibir” on 19st March 2022 between 7:00 to 8:30 A.M. at auditorium hall of the college under the guidance of Dr. Purushottam Rekhate. The event was organized by Dr. S. M. Khadse, Department of Physical Education and Dr. M. R. Shinde, N. S. S. Coordinator. Around 57 students, faculties and other staff members participated in the event, Dr. Purushottam Rekhate Sir emphasized the history, benefit and need of yoga and Suryanamaskar practice for a healthy and holistic lifestyle. The event was concluded with encouraging speech by Dr. M. R. Shinde. He also explained the importance of yoga and suryanamaskar and it should be included as a practice on a daily basis by everyone.
