E-Learning as a Solution for Teaching English Language

Prof. Dr. B.W.Somatkar

HoD, Dept. of English

Smt. Sindhutai Jadhao Arts and
Sci. College Mehkar. Dist- Buldana.

Abstract

Knowledge of any subject is the key aspects in the era of globalization. It is the asset for students, teachers as well as society. If we consider a case of English language as a subject, students teachers may be keen in knowing the English Literature in details, but due to lack of resources, these people do not find the information handy. To overcome this problem, English department of any college needs IT solution. E-learning will be the best solution for that because e-learning allows people to get English literature knowledge of any country within a single room and also allows people to discuss it in detail. It also allows recognized experts of different countries, an opportunity of making English Literature available internationally to anyone interested without the need to

Introduction

E-learning is nothing but training or education by all electronic modes. E-learning involves the use of electronic device in one way or the other to provide training or learning material. It also involves an English language lab which used uploaded software. E-learning comprises all forms of electronically supported learning and teaching. The information and communication systems, whether network learning or not, serve as a specific media to implement the learning process. Taking all these things into consideration, it is basically the computer and the net supported knowledge and skills. E-learning can include training, the delivery of just in time information and guidance from online available experts. Swift development in E-learning has taken place as it holds an all embracing range of technologies which includes the increase of computers, internet, and social networking sites regarding the variety of ways in teaching and learning English. Progress of technology has limitless impact on the students' life in and out of school as it supports to stimulate and increase their attention span during the lesson. It is highly becoming one of the best modern tools in the classroom.

Eraah (2006), e-learning refers to computer-enhanced training as opposed to the computer-based training of 1980s. It is usually delivered in a personal computer and include learning delivered by other communication technologies. To him, e-learning is an approach to facilitate and enhance learning through both computer and communication technologies. E-learning as the proper application of the internet to support the delivery of skills and knowledge in a holistic approach not restricted to a particular courses, technologies or infrastructure.

E-learning refers to the computer based (e.g. digital videos, projectors, operating systems) learning process which links digital content, schools and colleges have adopted some e-learning tools which provide the institution and students with increased interest in achieving higher performance through the development of new human competencies. Also the number of e-learning platforms is on the rise resulting in several research materials and papers. Although e-learning is an alternative to blended learning. However, e-learning is gaining ground across different areas. E-learning is a tool students in HEIs adopt to learn relationally regardless of time and space.

There are even places online where you can learn English live, in real time, with real people listening to you, talking to you, helping you and teaching you.

How to Study English with E-learning Resources

Ample material is available on internet for learning English language. It depends on the situation of learners. At the outset. It is important to know what makes all these resources different. Followings are the resources

1) Learning Method :

Some e-learning tools are just like as usual classroom teaching materials like unit tests, assignments. But there are some others which are in a funny way buy using various games, visual materials like videos and texts. A person has to decide which material help you better for the understanding.

2) Time Commitment :

A person is having a complete freedom in learning. He can decide what, when and how to learn it in a various ways. You do not have to follow anybody time schedule. For example, you can do it at any time or

in your spare time as well. English teachers will help you online also. Hence you will have to make a schedule or follow the teachers schedule. After all, its our decision how much time you want to spend learning English everyday. You have to decide how important a flexible schedule is for you.

- 3) Level : Some of the online resources will work for every student at every skill level from beginner to advanced, but some of the resources are for English students at specific skill levels. Hence there are certain levels and we have to find out at what level have to teach and learn it.
- 4) Topics : There are certain specific site of various learning like writing, listening, vocabulary or grammar. There are also site like TOFEL, TOEIC and IELTS. There are also various topics and broad areas also.
- 5) Materials : Certain questions arises in our mind that how do we learn best ? Do you remember more fun learning with videos and music ? Do you love to sing ? Choose the e-learning resource that uses your favourite materials.

helps you learn and remember the meaning of an English word. Each meme can be in the form of a cartoon, a drawing, a picture or a word.

Benefits :

The benefits of e-learning and the use of multimedia programs and products in the English as a Foreign language education, when compared to the traditional education. The advantages of the use of multimedia products have analyzed. E-learning is essentially the network enabled transfer of skills and knowledge. It refers to using electronic applications and processes to learn. E-learning fully adjust to your needs. Online studying is designed to accommodate every ones needs. The continually improving reputation of e-learning made it one of the most popular higher education alternatives in modern history. E-learning courses have credits and their certificates are equivalent to the on-campus ones. One of the biggest advantages of e-learning is the remote access to your desired classes. You no longer have to roll out of bed too early to awake and attend classes that may not interest you at all just because they are a part of your curriculum. The video and audio materials can be re-

materials of English. It also provides an opportunity for teachers to change their pedagogical strategies so as to improve the efficiency of teaching and learning.

प्रस्तावना

प्रतिवर्षी प्रमाणे 3 जानेवारी रोजी, सावित्रीबाई फुले यांच्या जयंतीनिमित्त देशातील अनेक दिग्गज नेत्यांनी देशाला शुभेच्छा दिल्या. गेल्या वर्षी पंतप्रधान नरेंद्र मोदी यांच्या अधिकृत ट्विटर हँडलवरून अभिनंदनाचा संदेश आला आणि गुगलनेही सावित्रीबाईंचे डूडल बनवले. ट्विटरवर सावित्रीबाई फुले हा हॅशटॅगही ट्रेंड करत होता. सावित्रीबाई फुले यांच्या नावाचे टपाल तिकीट, विद्यापीठाचे नाव, शासकीय पुरस्कार, अशा रीतीने अलीकडच्या काळात सावित्रीबाई फुले यांचे नाव आता भारतीय समाजात रुजले आहे. सावित्रीबाईंनी स्त्री-जाती निर्मूलनासाठी अनेक कामे केली. पण एक काम ज्यासाठी त्या सर्वात प्रसिद्ध आहेत ते म्हणजे 1848 मध्ये पुण्यातील भिडेवाडा येथे मुलींसाठी शाळा उघडणे
